

# Adult Discipleship Leader S.K.I.L.L. Lesson #2

---

## ***Now That I Believe—What's Next? (Helping New Believers Get Off to a Good Start)***

- ◆ **Purpose**: To help leaders take these four simple steps and use them to train other leaders to get new converts off to a good start in their Christian life and to help them begin to mature in their faith for a lifetime.

*1 Peter 2:2 (NKJV)—“as newborn babes, desire the pure milk of the word, that you may grow thereby,”*

- ◆ **Introduction**: All parents love new babies, especially while in the hospital. Although they love them all the time, there comes a time when reality sinks in—when they are released to go home with that baby—then the joyful work begins.
  1. **Baptism Needed**—the very first act of obedience in a Christian's life is the actual public profession of faith through baptism.
  2. **Friendships Needed**—whether you call these groups Sunday School or Small Groups the important thing is that these new converts get “plugged” into these groups as soon as possible.
  3. **Relationship Needed**—this is perhaps the most difficult part in this process.
  4. **Communication Needed**—Communicating with God is a simple way of saying “prayer.”

### ◆ Attention Leaders ◆

Remember that these are just four simple (although hard to find persons doing these in the church) steps to help those who believe find out and actually do “What's Next?” Always remember what Lawrence Phipps stated in the book, *More Abundant Life*—“One cannot change the direction of a parked car, but they can of one that is moving.” In other words, we must get these new converts moving and the Holy Spirit is quite capable of handling the growth as we get them moving in the direction of a Bible preaching church and congregation.
