

Worship Resources

THE OFFICE OF WORSHIP RESOURCES - Worship Resources serves Alabama Baptist Churches by equipping leaders and congregations as they seek to worship God fully – heart, mind, strength, and soul – using the medium of music.

Using music to memorize Scripture and sing God's commands gives us an amazing way to show God's power and share His love for us in a tuneful way! This song allows us to display to the world His good and perfect way for our lives. It allows us to worship God wholly from the deep recesses of our hearts, our attitudes, our emotions, and our abilities. Music is powerful and an incredible tool for memorization that never leaves you, for power when you are weak, for joy when the world around you says otherwise.

LIFT! Defining Worship is a developing event designed for church staff and lay people to learn "how-to's" of worship planning, logistics, worship tech, sermon preparation, rehearsal techniques and more, as well as laying all things aside to worship together with a worship team and incredible speakers to challenge us to worship with our hearts and minds.

To train the next (or now) generation to worship God wholly, we offer Children's Honor Choir (grades 4-6); OneVoice Honor Choir (grades 7-12); MIX Music Camp...3 camps in one...MIX (grades 2-5); MIX6 (grade 6); reMIX (grades 7-12). This year there were many gospel conversations and 3 salvation experiences that were reported.

SPOTLIGHT workshops are half-day workshops that allow us to focus on a particular topic like music technology, praise teams, worship planning, lighting, choir rehearsal techniques, mission choirs, staff relationships, etc.

We are developing a new event to assist churches with worship arts for any age group. Using creative fine arts to add to the worship experience in bringing about engagement of the congregation as well as glory to the Lord. This could include training in handbells, drama, creative movement, extra instrumentation, song dramas, keyboard/piano, etc.

Networking with like-minded people and discovering resources is an important role in our office, as well as offering services to help the local church with sound equipment or individualized training. Applying what we learn into practical acts of service and worship in our churches is one of our goals.

If you are looking for a worship leader or need a place to submit a resume for search committees to peruse, we are happy to assist with referrals and search committee training. We also offer audio/video consultations.

We covet your prayers as we move forward knowing the holiness of God and acknowledging who He is and what He has done.
